INTRODUCTION

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1945 edition of the Winston-Salem City Directory.

Confidence in the continued growth of Winston-Salem's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Winston-Salem to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Winston-Salem Directory will fulfill its mission as a source of authentic information pertaining to the community.

Five Major Departments

The five major departments are arranged in the following order:—

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 21 to 592, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Winston-Salem and vicinity, and the name, official personnel, nature and address of each firm and corporation.

THE BUYERS' GUIDE, preceding the Classified and separately paged from 1 to 80, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Winston-Salem and vicinity. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a large commercial and industrial center like Winston-Salem, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 673 to 726, on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

THE POSTAL UNIT GUIDE, on pink paper, follows the Classified and is separately paged from 1 to 3. This section is reproduced verbatim from copy supplied by the postal authorities.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, follows the Postal Unit Guide and is separately paged from 5 to 108. In this section the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed

copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Winston-Salem and vicinity.

The Winston-Salem Directory Library

Through the courtesy of the publishers of the Winston-Salem City Directory, a Directory Library is maintained in the offices of the Winston-Salem Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

WINSTON-SALEM

CITY OF HISTORIC CHARM AND THRIVING INDUSTRY;
THE WORLD'S TOBACCO CENTER

(Courtesy Winston-Salem Chamber of Commerce, Inc.)

History

The story of Winston-Salem is reflected equally in the quaint and charming pre-Revolutionary buildings of historic Salem and in the great modern industrial plants located a few blocks away. For Winston-Salem, as its name implies, is a city of dual origins. Its history begins in 1766 with the founding of the small frontier village of SALEM in the rolling wilderness hills of Piedmont, North Carolina. The founders were a hardy band of Moravian pioneers, members of an old Protestant denomination of Bohemian origin, seeking religious freedom and opportunity in a new world. They were carefully selected for the task of establishing a new community and they built their town according to definite plans which had resulted from long study by their church leaders. These early settlers, who migrated

Main Hall, Salem College, with Historic Home Moravian Church (1800) in Left Foreground

south from Pennsylvania, built their churches and other structures so well that many of them still are being used. Among them are the church at nearby Bethabara (1788) and Home Church in Salem (1800); the Moravian Brothers' House (1769); Salem Tavern (1784); the Fourth House (1767); and the Sisters' House (1786). WINSTON, the newer half of the "Twin City," had its origin more than three-quarters of a century after the founding of Salem. It grew as a progressive business and manufacturing center close by the older Moravian community. The town was named in honor of Major Joseph Winston, soldier of Revolutionary War fame, by official act of the 1850-51 session of the North Carolina General Assembly. It was designated as the seat of Forsyth County, named for Colonel Benjamin Forsyth, hero of the War of 1812. The county was erected from a division of Stokes County by legislative act during the 1848-49 session. Winston was incorporated as a town in 1859, and common interests brought its citizens and those of Salem into close cooperation in many endeavors. The two communities, through the years, developed side by side; old Salem Church Square, in the heart of the original Moravian settlement, and the new Winston Court House Square were located less than a mile apart. In 1913, the two communities were consolidated by popular vote into WINSTON-SALEM—"A City Founded Upon Cooperation." From that consolidation has grown

today's progressive community, where the best of the old and the best of the new have been blended into the life of a great Southern city.

Wrap parcel post carefully in heavy paper and tie knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time It Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

"When in doubt, play trumps"

How many times have you heard that trite statement? When in doubt about the location of an address; the proper spelling of a name; a correct address; in fact anything pertaining to your city or any other, the

is your trump card.

THE HOME-OWNER SYMBOL, in the Householders Guide of the New City Directory, designates Home-owners on every Street and Avenue in the city. As a means of Checking Credits, conducting Direct Mail Campaigns, Sales Planning, Prospect Lists, etc., it is of invaluable assistance.

THE BELL SYMBOL designates Telephone Subscribers and appears in the Householders' Guide following street numbers.

NEW FEATURES and DEPARTMENTS are constantly being adopted in our efforts to improve and add to the recognized value of the City Directory service demanded by the public.

Don't Contribute to Counterfeiters KNOW YOUR MONEY!

Don't Be Fooled by Forgers KNOW YOUR ENDORSERS!

The Government never redeems counterfeit money!

1. **KNOW YOUR MONEY!** Study the bills you receive so as to become familiar with the workmanship on them, especially in the portraits.

2. **COMPARE** a suspected bill with a genuine of the same type and denomination. Observe these things:

PORTRAIT *Counterfeit*—Dull, smudgy, or unnaturally white, scratchy; oval background is dark, lines irregular and broken. Portrait merges into the background.

Genuine—Stands out distinctly from the oval background. Eyes appear lifelike. Background is a fine screen of regular lines.

COLORED SEAL *Counterfeit*—Saw-tooth points around rim are usually uneven, broken off.

Genuine—Saw-tooth points around rim are even and sharp.

SERIAL NUMBERS *Counterfeit*—Poorly printed, badly spaced, uneven in appearance.

Genuine—Figures firmly and evenly printed, well spaced.

PAPER *Counterfeit*—Generally has no silk threads, but these may be imitated by very small red and blue ink lines.

Genuine—Printed on distinctive paper in which very small red and blue silk threads are scattered. The silk threads are not always noticeable on bills that are badly soiled or worn.

3. **RUBBING** a bill on a piece of paper will *not* prove it is genuine or counterfeit; ink can be rubbed from good bills as well as bad ones.

4. **CONSULT** an experienced money-handler or police officer to make sure, if you are still in doubt, whether a bill is genuine or counterfeit.

5. **REMEMBER, NOT ALL STRANGERS ARE COUNTERFEITERS, BUT ALL COUNTERFEITERS ARE LIKELY TO BE STRANGERS.**

This information is reprinted from the U. S. Secret Service 32-page booklet, "KNOW YOUR MONEY", which tells how to detect counterfeit coins and bills and how to guard against losses from forged Government checks. Copies may be purchased for 10c each, or \$7.50 per 100, from the Superintendent of Documents, Government Printing Office, Washington, D. C.

U. S. POSTAL UNIT GUIDE OF WINSTON-SALEM, N. C.

Reproduced from Post Office Copy

1945

To speed up the distribution and delivery of the mails, Winston-Salem has adopted the **NUMERICAL ZONING SYSTEM**.

The streets listed alphabetically with the unit number for each street (or portion of it) are shown on the following pages. Unit numbers for box service are listed separately. Unit numbers should be included as a part of the complete address of all mail and the number should appear after the name of the city and before the name of the state.

All users of the mails are urged by the Post Office Department to cooperate in this effort by including the unit number in all local addresses as well as inform correspondents of this addition to their own official address, and to have their postal unit number on their letterheads, envelopes, statements, and all advertising matter.

The Post Office, on request, will be glad to cooperate with you in assigning proper unit numbers to your mailing lists.

Directory of Householders, Occupants of Office Buildings and
Other Business Places, Including a Complete
Street and Avenue Guide

1945

Copyright, 1945, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ® following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The Δ preceding names denotes houses and places of business having telephones. Figures in parenthesis denote old numbers.
